Regulatory Compliance Certification: Medical Devices RCC-MDR

2026 Candidate Guide

RAPS
REGULATORY AFFAIRS PROFESSIONALS SOCIETY

Contents

Welcome and Overview

Introduction

Congratulations on pursuing the Regulatory Compliance Certification for Medical Devices (RCC-MDR). RAPS commends your commitment to your career and the regulatory profession.

This document contains information about:

- Meeting eligibility requirements
- Applying to the program
- Preparing for the exam
- Scheduling the exam
- What to expect at the testing center
- What to expect after the exam
- Recertification requirements

This document pertains to the RCC-MDR certification only. For information about the RCC-IVDR certification, see the RCC-IVDR Candidate Guide.

The RCC is a leading credential for regulatory professionals in the healthcare product sector. It is intended for individuals employed in regulatory agencies, industry, consultancies, and other settings involved with the regulation of healthcare products. Success on the RCC exam requires knowledge of:

- Conformity of the Devices
- Technical Documentation
- Post-marketing Surveillance
- Vigilance
- Clinical Investigations

About Certification

Certification is a process by which an entity grants formal recognition to individuals that meet predetermined, standardized criteria. The certification process involves a determination of eligibility, an assessment of demonstration of competence, and requirements for regular recertification. Certification is usually voluntary and established by a non-governmental entity.

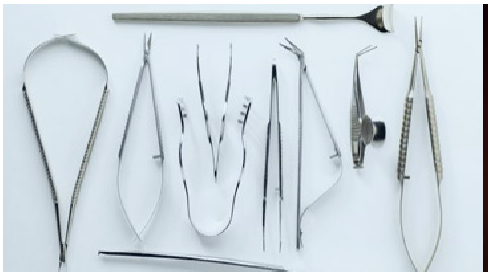
The primary purpose of a professional certification program is to provide an independent assessment of the knowledge and skills required for the successful performance of a professional role. This assessment is typically accomplished by the successful completion of an exam.[1]

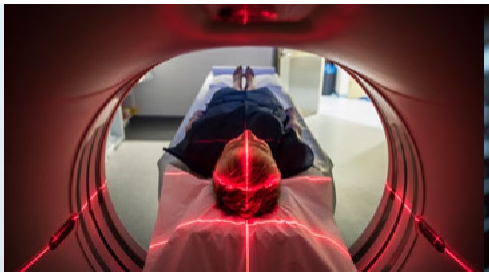
Certification Value[2]

In general terms, a high-quality certification validates an individual's knowledge, skills and abilities in a defined profession, occupation, skill or role. Certified individuals in the workforce reduce risk and enhance consumer protection and public safety. In addition, these certifications allow employers and other stakeholders to identify individuals with the competencies needed to perform a role or task.

[1] Defining Features of Quality Certification and Assessment-Based Certificate Programs. (2010) The Institute for Credentialing Excellence.

[2] A Look at the Value of Professional Certification. (2012). The Institute for Credentialing Excellence.





What it is...

The RAPS Regulatory Compliance Certifications (RCC) will provide individuals and organizations with an option for obtaining an internationally recognized credential. Employers and peers will know, through third-party validation, that certification holders understand European regulations related to In Vitro Diagnostics (IVD) and Medical Devices (MDR), respectively.

As with the Regulatory Affairs Certification (RAC), this program provides successful participants with distinguished credentials with either an IVD or Medical Device focus to help advance their careers. Inspired by the requirements under the IVDR and MDR respectively, this program covers knowledge specifically required in the new European regulations.

What it isn't...

These are voluntary certifications and are not mandated by law or regulation.

While the examination criteria were inspired by section 3 of Article 15 of the MDR and IVDR, these certifications are merely one part of an individual's career journey.

These designations are helpful for PRRCs but do not qualify individuals to serve in the PRRC role, nor do they guarantee that an individual meets all the requirements necessary to practice as a qualified PRRC.

Certification holders benefit from:

- Increased recognition by peers and respect of colleagues in the profession
- Improved opportunities for employability and advancement
- Greater confidence in their professional competence
- Increased professional trust from employers or the public
- Increased autonomy in the workplace
- Better compensation and career longevity

Consumers benefit from:

- Objective, independent, third-party evaluation and assessment of professional competence
- Commitment to public safety and/or consumer protection
- Accountability through ethical conduct standards and/or a disciplinary process
- Recertification requirements for continued or enhanced competence

Employers benefit from:

- Qualified individuals for employment or advancement
- Recertification requirements for continued or enhanced competence
- Commitment to public safety and/or consumer protection
- Reduced risk of errors, accidents and/or legal liability
- Reduced employee turnover and increased job satisfaction
- Justification for potential compensation differential[2]

The RCC demonstrates to employers, clients and colleagues that a regulatory professional has the essential knowledge required for regulatory compliance in the healthcare products sector. As the demand for competent regulatory professionals increases globally, RCC-credentialed professionals are well-positioned to be effective team members and contributors in every work setting.

Prepare for the Exam

Exam Overview

Each exam will be reviewed and revised annually. The current exam content is based on MDR regulations that went into effect before 1 April 2025. Each exam is designed to assess the knowledge and skills of a regulatory professional through a valid and defensible method, ensuring that the content assessed is reflective of current practice.

Prepare for the Exam

The RCC exams are challenging, so it is important to develop a study plan. Here are some things to consider:

- Review the exam content outline—the content outline in the Appendix contains the content domains, competency statements, and the number of questions in each domain.
- Assess knowledge and experience scope and depth—Use the content outline as a checklist to evaluate areas of strength and weakness; it will help focus studying.
- Build and implement a plan—Allow sufficient time to build a knowledge base in areas of limited experience to expand knowledge in more familiar areas. Use reference materials to supplement your knowledge.

Knowledge Required and Regulatory Basis

- Knowledge and comprehension of the MDR
- Knowledge and responsibilities required of a regulatory professional with at least four years of pertinent regulatory experience or equivalent

Question Types

The exam consists of 120 multiple-choice questions that must be answered within a two hour and thirty-minute time limit.

There are two question formats used in the RCC exams.

- Recall questions ask for recognition and comprehension of specific information from the MDR regulations
- Application questions require relating specific knowledge to a situation that may be encountered by a regulatory professional.

Computer-Based Testing and Testing Modality

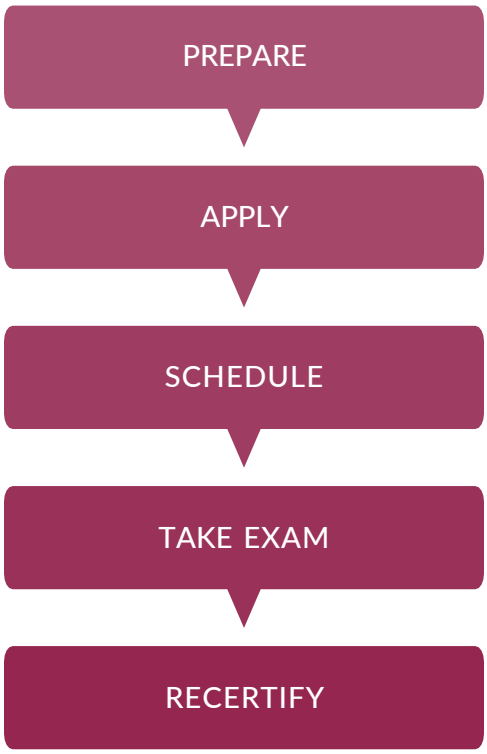
All exams are computer-based. Testing can occur at selected testing centers, confirmed by the testing vendor, or online at a suitable location of the candidate's choosing. You do not need to choose your preferred testing modality when applying. Modality is selected when scheduling the exam.

Key Exam Facts

- EU content
- Content is updated annually
- 120 questions
- Two and a half hours
- Computer-based
- Two question formats—recall, application
- Can be taken at testing facility or online

The Journey

Check the RAPS website at RAPS.org for additional resources. Some resources are free of charge; others are available for purchase. RAPS's resources are not required.



Apply for the Exam

Application Process

Apply online at raps.org/rcc. Testing windows, application deadlines and fees are listed in the Appendix.

Eligibility Requirements

One of the following educational and professional experience requirement combinations is required to apply:

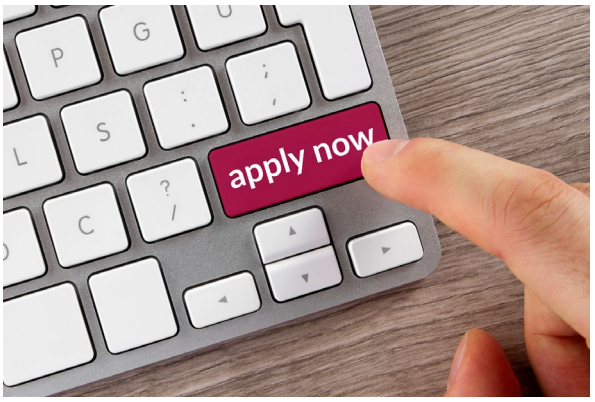
- MDR – Bachelors, Masters or Doctorate Degree in medicine, pharmacy, engineering or relative sciences + 1 year of regulatory-related* experience with medical devices
  OR
- 4 years of regulatory-related experience with medical devices

*Regulatory-related experience may include quality assurance, quality control, clinical research related to the approval of health products, or health product project management.

General Application Instructions

Include your name exactly as it appears on a government-issued photo identification (ID). If the name does not match the government ID, you will not be allowed to sit for the exam.

1. Provide a valid email address. If using a work email address, please keep in mind that any change in employment during the application process could affect access to that email account. All communications about the exam, including scheduling and results information, are electronic. Please contact the RAPS Program Office with email address changes.
2. As part of the application process, you must attest to the following:
   - I have read, understood and agree to comply with all policies outlined in the RCC Candidate Guide.



- I acknowledge and agree to RAPS examination policies and certification policies.
- The information in my RAPS account is complete and accurate.
- I meet all eligibility requirements for the RCC exam, and I authorize RAPS to make any inquiries deemed necessary to verify my credentials.
- I understand that false information may provide cause for denial of this application or loss of the RCC credential.
- I allow RAPS to use information from my application and from the exam for the purpose of aggregate statistical analysis, provided that any personal information or identifiers are removed.
- I authorize RAPS to publish my name in the public certification directory if I successfully complete my examination.
- I understand and agree to the policies related to withdrawing from the exam.
- I acknowledge that I have read and understand the tenets outlined in the RAPS Code of Ethics.

See the Appendix for the Code of Ethics for Regulatory Professionals.

Application Tips

- Make sure name on application matches the provided government-issued ID
- Use an email with long-term access; personal emails are often more effective than work emails
- Read the Candidate Guide
- Read and agree to abide by the RAPS Code of Ethics
- Review the eligibility rules prior to applying

Submitting Payment

The correct payment must accompany applications.

Application Receipt Confirmation

A "thank you" email signifies application completion. The RAPS Program Office will contact you with application questions or if an application is selected for audit.

Application Audit

RAPS may audit a percentage of applications for completeness and accuracy. If selected for audit, you will receive an email detailing additional documentation requirements. Noncompliance by the stated deadline will result in you not being allowed to test and you will be issued an exam refund minus the administration fee.

Incomplete Applications

Any application deficiency must be corrected by the application deadline. Noncompliance by the stated deadline is grounds for application rejection. You will be issued an exam refund minus the administration fee.

Application Rejection

Applications will be rejected for failure to meet eligibility requirements or falsification of application information. Applicants rejected on these grounds will be issued an exam refund minus the administration fee. Penalties and sanctions may also apply.

Nondiscrimination Policy

The RCC program does not discriminate based on age, gender, race, religion, national origin, disability, sexual orientation or marital status.

Application Withdrawals and Refunds

There is an administrative fee for withdrawn applications. You are ineligible for refunds following a transfer. Requests to withdraw after the application deadline will be rejected.
To withdraw your application, complete the following steps:

1. Submit a written request to the RAPS Program Office before the application deadline (prior to any transfers).
2. If you have a scheduled exam with Pearson VUE, login to their portal and cancel your exam

Transferring to Another Testing Cycle

A request to transfer to the next testing window may be made by contacting the RAPS Program Office no later than the final day of the testing window. If you have a scheduled exam with Pearson VUE, you must also login to their portal to cancel your exam. Pearson VUE requires cancellation 48 hours in advance for in-person exams.

Only two transfers are permitted. For example, if you transfer from the spring to the summer window, that is one transfer. If you transfer from the spring to the autumn window, that is two transfers. Additional transfers will require re-applying to the program at full price.

Requests to transfer to the next testing window are free if they are made before the exam application deadline. Transfer fees apply if the transfer is made after the application deadline. Transfers will not be permitted after the final day of the testing window. Applicants who request to transfer after the final day of the testing window must re-apply to the program at full price.

If you need to transfer because of an emergency, consult the "Emergency Situations" section.

All fees can be found in Appendix G.

Appeals Process

You have the right to request reconsideration of any adverse decision made by the RAPS Program Office, including decisions related to examination security reviews and examination result invalidation.

A request for reconsideration must be submitted to the RAPS Program Office within 30 days after adverse decision notification using the form in the Appendix. RAPS will acknowledge requests in writing within 10 days.

The Regulatory Affairs Certification Board (RACB) will address the reconsideration. Reconsideration outcome notifications will be provided within 90 days of receipt. RACB decisions are final.

Exam Scheduling

Authorization to Test Email

Exams are scheduled directly with the contracted testing vendor, Pearson VUE, who will send an "Authorization to Test" email after the application deadline.

The email will contain a website link where you will go to set up your account and schedule your exam.

Applicants should add PearsonVUEConfirmation@e.pearson.com and Americas.css@pearson.com to their email safe list.

Exam Scheduling

Log in to the Pearson VUE scheduling site and choose between in-person and online testing.

You should schedule your exam as soon as you receive the Authorization to Test email to maximize date, time, and location options. Pearson VUE does not guarantee availability at their in-person testing centers. If you have difficulty finding a seat at an in-person center, consider taking your exam online.

All exam appointments must be scheduled at least two days before the testing window closes.

Change a Testing Appointment

Sign into your Pearson VUE account to change the date, time, or location of the appointment within the same testing window.

To move to a different testing window, consult the "Transferring to Another Testing Window" section.

Change the Exam Type or Modality

To change your exam type (e.g. from RCC-MDR to RCC-IVDR or vice versa) you must submit the request to the RAPS Program Office by the application deadline. Note that a change fee will apply.

To change the testing modality (e.g. from online to in person testing or vice versa) log in to your Pearson VUE account to make that change.

Emergency Situations

Under certain emergency situations as outlined, the Program Office may, at its discretion, transfer an applicant's exam to the next testing window and waive the transfer fee.

If you cannot take the RCC exam for one of the following reasons you may request to transfer to the next testing cycle:

- Serious illness (either the candidate or an immediate family member)
- Death in the immediate family
- Disabling accident
- Court appearance or jury duty
- Unexpected military deployment
- Mandatory quarantines
- Geopolitical event (e.g., breakout of war)

In such circumstances, you must contact the RAPS Program Office no more than three days after the end of the window. The appropriate documentation must be submitted. Work-related emergencies do not qualify for this exception.

Failure to Schedule or Keep an Appointment

Such failures are considered a no-show and result in all exam fees being forfeited. The following are no-show situations:

- Failure to schedule an exam appointment during the testing window or by the appointment deadline
- Failure to fulfill a scheduled appointment
- Arriving at the testing site more than 30 minutes late
- Arriving to your online testing appointment more than 15 minutes late
- Failure to produce appropriate government-issued IDs at the exam appointment
- Failure to cancel your testing appointment with Pearson Vue.

No-shows must reapply to take the exam at full price.

Special Accommodations for the Exam

If you require special accommodations under the Americans with Disabilities Act (ADA) you must send the completed "Special Accommodations Request" with "Disability-Related Needs" forms completed by a qualified professional, to the RAPS Program Office at the time of application. The request must indicate the nature of the disability and specify the type of accommodation requested. Candidates will be notified in writing if their request is approved. Consult the Appendices for more information.

In Person Testing

Testing Center Arrival

Arrive at the testing center at least 30 minutes early with a valid form of government issued ID that lists your name as it appears in your confirmation email.

If you arrive more than 30 minutes after your appointment time and are refused admission, the exam and delivery fees are nonrefundable.

In case of an incorrect name, contact RAPS immediately at +1 301 770 2920, ext. 200. Candidates who cannot produce ID or exact matching ID forfeit their exam fees and will not be permitted to take the exam. Note that the RAPS office is open Monday-Friday 9am-5pm Eastern Time USA.

Items at the Testing Center

No personal items may be taken into the testing room. This includes all bags, books, notes, phones, pagers, watches and wallets.

For a list of items that are allowed without pre-approval, please view the comfort aid list here: https://www.pearsonvue.com/us/en/test-takers/accommodations/comfort-aid-list.html

You will be provided with an abbreviations table.

Pearson VUE testing centers administer exams for multiple organizations. Others in the testing room may be taking different exams and have different rules for their exam, including time allocation and permitted items.

Other Considerations

- Smoking is prohibited
- Questions about exam content are not allowed
- Exam sessions are monitored and recorded in both audio and video formats
- If breaks are allowed, the clock keeps running

Test Center Closure

If you are impacted by a test center closure, you will receive an email with information on how to reschedule your exam.

Exam Security and Confidentiality

The RAC exams are the sole and exclusive property of the RAPS Program Office. These materials are confidential and not available for review by any person or organization other than the RACB and the exam committees. Copying, publishing, reproducing, distributing, or disclosing exam content in any form is considered a violation of the exam security and confidentiality policy and may result in disciplinary action, including termination of a testing session, invalidation of test results, denial or revocation of certification, and/or restrictions on future testing.

RAPS reserves the right to review examination results and related testing data when information suggests a potential violation of examination security requirements or irregular testing behavior. Such reviews may include evaluation of testing data, testing vendor security reports, and statistical or psychometric analyses. Examination results may be placed on administrative hold while a review is conducted. Candidates are required to cooperate fully with any examination security review or investigation.

Following a review, RAPS may release the examination result, request additional information, require retesting, invalidate examination results, deny future testing privileges, revoke certification, or impose other sanctions permitted under applicable certification policies

Problems at the Testing Center

Contact the proctor immediately about any technical difficulties during the exam.

Termination of Exam/Dismissal

You are expected to always conduct yourself in a professional manner at the testing center. The test center administrator or proctor is authorized to dismiss anyone and/ or request that a test score be nullified under the following circumstances:

- Using or attempting to use someone else to take the examination.
- Using notes or other study materials during the testing process.
- Creating a disturbance. Disruptive behavior in any form is not tolerated. The test administrator has sole discretion to determine what constitutes disruptive behavior.
- Communicating in any manner with anyone other than the administrator or proctor during the testing process.
- Leaving the testing room without permission.
- Tampering with a computer.
- Removing or attempting to remove any material from the testing room.
- Failing to follow any examination policies or requirement explained in this Candidate Guide.
- Refusing to comply with examination security procedures or investigation requirements.
- In addition to dismissal from a testing session, RAPS reserves the right to review examination results and testing data when information suggests a potential violation of examination security requirements or irregular testing behavior. Candidates may be required to cooperate with an examination security review or investigation. Following such a review, RAPS may release the examination result, require retesting, invalidate examination results, deny future testing privileges, revoke certification, or impose other sanctions permitted under applicable certification policies.

Online Testing

Before Exam Day

Be sure to read Pearson VUE's guide to taking your exam online to learn about the following:
https://www.pearsonvue.com/us/en/onvue/tips.html

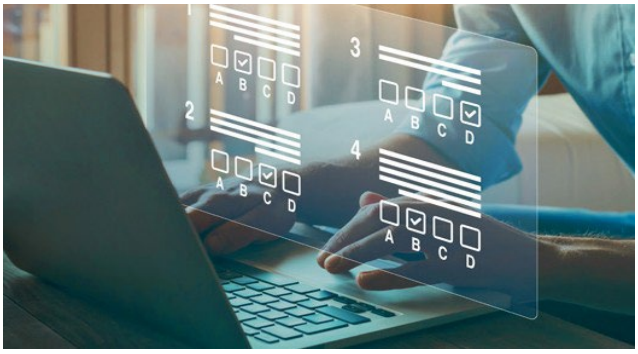
- Equipment needed
- Acceptable ID
- Running a system test to ensure your computer is compatible and your internet service is sufficient
- Finding a quiet and private space where you can take your exam without interruptions
- Consenting to monitoring throughout your test via webcam and microphone
- Check in process

Review the list of items you are allowed to have in the room without pre-approval:
https://www.pearsonvue.com/us/en/test-takers/accommodations/comfort-aid-list.html

Read about the rules and requirements for taking your exam online:
https://wsr.pearsonvue.com/testtaker/registration/ExamPoliciesPage/MEASUREMENTRESE?conversationId=1671001

On Exam Day

- Check in up to 30 minutes before your scheduled appointment time.
- If you are more than 15 minutes late for your appointment, you will not be able to check-in.
- Show government-issued photo ID matching the name used for registration. You will take a photo when you check in that will be compared to your ID.
- Agree to terms and conditions
- Observe the environmental and behavioral rules



During the Exam

The environment should be quiet to avoid distractions and to ensure that the online proctor can hear everything at your location.

The proctor has complete access to your computer to monitor for unauthorized activities.

The proctor can terminate the testing appointment for integrity reasons at any time.

Room Environment

- Quiet location
- Only candidates in the room
- Working, powered and connected computer matching requirement specifications
- Clear desk/test-taking surface
- Remain seated
- No hats, hoods, or other headgear, other than for religious purposes
- No coats or jackets

Other Considerations

- All exam sessions are monitored and recorded in both audio and video formats
- Breaks are not permitted for online exams
- No note board or scratch paper is permit

Online Testing Log-In Issues

Log-in issues for online tests occasionally occur. If you do need assistance, use the chat function on Pearson VUE's website to get help.

Online Testing Privacy Statement

By taking the online exam, you attest that you understand the exam session, including video, is recorded and may be saved for up to 30 days. By agreeing to take the exam online, you agree to exam session recording and review by the testing agency and testing program.

After the Exam

Exam Scoring

Exams are scored by Pearson VUE after the close of the testing window. Exams are not scored at testing centers. A statistician and the exam committee review statistical report of scoring to assure ongoing quality of the exams.

All scores will be reported on a scale of 0-550. The scaled score is neither the number of questions answered correctly nor the percentage of questions answered incorrectly. One cannot look at the scaled score and determine the number of correctly answered questions needed to pass the exam.

Notification of Exam Results

Exam results may take 6-14 weeks after the close of the testing window. Results will be sent via email. No results will be reported over the telephone. Results are released only to candidates.

RCC Recognition

A list of all active RCC-credentialed professionals is available online at RAPS.org. Newly credentialed professionals are added after all candidates are notified of their status. Anyone not wishing to be included in the online listing should contact the RAPS Program Office.

Use of the RCC Designation

After passing, you may use the "RCC-MDR" designation as a professional credential after their names, as well as on resumes, curriculum vitae, employment and other professional records. This designation cannot be used by individuals who do not recertify. See RAPS.org for more information on the proper usage of the designation.

Retaking the Exam

If you fail the exam you are eligible to retake the exam in the following window. You cannot retake the exam during the same window. To apply to retake the exam, you must submit a new application. There is no limit on the number of times you may retake the exam.

Release of Information

The RAPS Program Office maintains strict procedures for ensuring the confidentiality of all candidate records. Information about candidates is released only to the candidate.

Recertifying

Maintaining the Credential

Continual learning, knowledge enhancement, and professional development are vital to regulatory professionals. Once certified, you maintain your RCC credential through continued learning and involvement in professional activities. You must renew your RCC every three years by earning 24 RCC recertification credits. Credits may be accumulated in many ways, including participation in continuing education, public speaking on regulatory topics, professional writing, and involvement with professional organizations.

Individuals who hold more than one RCC designation are only required to submit a single recertification application with a total of 24 credits. The recertification cycle is based on your most recent RCC certification and the related recertification cycle.

Appendix A

RCC-MDR Exam Content Outline

Domain weighting percentages in the exam content outline are approximate and may be +/-2%. Exam content for the RCC-MDR exam is based on regulations and guidelines in:

Domain I: Conformity of the Device – Exam Weighting Approximately 21%

1. Train staff to ensure the standard operating procedures (SOPs) are followed in a manner that is proportionate to the risk class.
   a. Quality management system
   b. Location of valid SOPs
2. Ensure that the batch release of a product was produced within the specification of the product adheres to quality management systems, and then ensure the issuance of a declaration of conformity to the public.
   a. Final specification document.
   b. Check the process of the batch release.
   c. Content of the declaration of conformity is according to ANNEX IV.
3. Perform an audit of the release process and document improvements to the process.
   a. Evaluate if the process was performed accurately.

Domain II: Technical Documentation – Exam Weighting Approximately 19%

1. Compile the technical documentation that contains risk management, labeling information, clinical evaluation, manufacturing process, and a summary of the verification and validation process.
   a. ANNEX II
   b. ANNEX III
2. Create a declaration of conformity and ensure it is up-to-date and submitted to the notified body and/or EU-authorized representative.
   a. ANNEX IV
   b. Submission process
   c. EU-authorized representative
3. Obtain confirmation from the EU certification body, submit, and verify that the certification number is active and valid.
   a. ANNEX II
   b. ANNEX III
   c. Conformity assessment routes

Domain III: Post-marketing Surveillance – Exam Weighting Approximately 28%

1. Ensure the existence of a procedure (SOP) for a post-market surveillance system of the manufacturer and that it is aligned with requirements.
   a. ANNEX III
   b. Quality management system Article 10 (10)
   c. Location of valid SOPs
2. Check of presence of released PMS-Plans in proportion to the risk class and appropriate for the type of device.
   a. Article 83
3. Check of presence of released PMS-Reports for medical devices of class I; report shall be updated when necessary and made available to the Competent Authority upon request.
   a. Article 85
4. Check of presence of released PSUR-Reports for medical devices of class Ilia, class IIb, and class III.
   a. Periodic safety update report.
   b. Article 86
   c. Manufacturers of class IIb and class III devices shall update the PSUR at least annually.
   d. Manufacturers of class Ilia devices shall update the PSUR when necessary and at least every two years.
   e. Submission process with notified body.
5. Check for presence of released SSCPs for implantable devices and for class III devices.
   a. Article 32
   b. Summary of safety and clinical performance (SSCP)

Domain IV: Vigilance – Exam Weighting Approximately 17%

1. Understand legal obligations to report any serious incident to the Competent Authorities that have the ability to perform investigative corrective actions.
   a. Article 15 (D)
   b. Article 87 through Article 91
2. Ensure that corrective action report is submitted to the Competent Authorities and ensure its validation.
   a. Corrective action reporting (Field Safety Corrective Action, FSCA).
   b. Investigation is performed and a response is submitted to the Competent Authorities.
   c. Final report is created and submitted to the Competent Authorities.

Domain V: Clinical Investigations – Exam Weighting Approximately 15%

1. Ensure that a signed statement by the natural or legal person responsible for the manufacture of the investigational device that the device in question conforms to the general safety and performance requirements apart from the aspects covered by the clinical investigation.
   a. ANNEX XV 4.1
2. Ensure that every precaution has been taken to protect the health and safety of the subject.
   a. ANNEX XV 4.1
   b. Article 10 (16)

Appendix B

Special Accommodations Request Form

To the Applicant: The Regulatory Affairs Certification Board (RACB) may provide accommodations to candidates with a disability as defined by the *Americans with Disabilities Act (ADA).* Please review the RCC Candidate Guide before submitting this form to be sure a candidate qualifies for special accommodation.

Please Type or Print Name

First	Last	MI

Address

Street	Mail Stop/Suite/Apt

City	State/Province	Zip/Postal Code	Country

Phone

Country & Area Code

Email

For which exam is accommodation requested?

◯ RCC-MDR ◯ RCC-IVDR

Type of accommodation requested

Have you previously received accommodation in any educational or testing situation? ◯ Yes ◯ No

If yes, please describe the accommodations received

I certify that the above information is true and accurate.

Signature	Date

Appendix C

Documentation of Disability-Related Needs

To the Professional: The individual identified below is requesting accommodation for the Regulatory Compliance Certification (RCC) exam. The Regulatory Affairs Professionals Society (RAPS) requires that candidates requesting testing accommodations provide documentation of the disability from a person qualified to assess the disability.

By completing and signing this form, you are verifying that the individual named below has been diagnosed with the stated disability, and the recommended accommodation is required to fairly demonstrate the candidate's ability on the exam.

Candidate Name	First	Last	MI

Phone	Country & Area Code	Email	

Please include the following:

1. Diagnosis (note: mental and emotional disabilities must include a diagnosis from the DSM-IV)

2. Description of the candidate's disability and how the disability affects the candidate's major life activities (e.g. hearing, seeing, walking, talking, performing manual tasks)

3. Recommended Accommodations:

Signature	Date

Appendix D

Code of Ethics

As regulatory professionals, we have the responsibility to maintain particularly high standards of professional conduct while exercising professional requirements and duties in upholding and clarifying the applicable laws and regulations. We strive to make a positive contribution to public health by using this code of ethics in our workplace(s). This is the RAPS Code of Ethics; regulatory professionals understand that their employers and others may have other codes of ethics that they may need to acknowledge, understand, and follow.

Our Code of Ethics was first initiated in 2003 and has been updated twice since then. We vow to regularly assess its applicability and refresh its content as the regulatory profession grows and evolves.

Fundamental Principles

As a regulatory professional I aspire to:

- Provide my employer with the complete regulatory requirements to ensure their activities are conducted in compliance with the laws and regulations of the respective authorities.
- Be competent in performing my duties as a regulatory professional.
- Base decisions on factual, up-to-date information and clearly communicate competing or conflicting concerns, as necessary. Have integrity. Be consistent in making decisions and be trustworthy.
- Be honest with employers and team members to ensure all information and communications are accurate and complete.
- Have the courage to make difficult decisions. Present all relevant information to my organization to promote decisions. Be able to withstand challenges to my views and be accountable for my errors.
- Be fair in my dealings with all stakeholders. Apply regulatory standards equitably. Consider all interests of all parties in the decision processes.
- Be respectful of others. Treat all individuals with dignity and courtesy.

RAPS members perceive eight core values that regulatory professionals use in conducting their professional responsibilities.

Duty

Our role is defined by our responsibility to advise individuals, team members, and organizations regarding the appropriate regulatory context for actions they may want to take. We also must heed our obligations as employees, consultants, and contractors for making products for patients; as members of teams conducting clinical & nonclinical studies; as regulators; and as members of our profession. Regulatory professionals have a duty to:

- Disseminate and interpret applicable government laws and regulations, industry standards and *good practice* guidelines without bias.
- Provide healthcare professionals (HCPs) with accurate and relevant information regarding the safety and effectiveness of products.
- Maintain the integrity of our profession and strive to preserve the public's trust.

Competence

Competence means the regulatory professional has the knowledge, experience, ability and skill sets to effectively identify, analyze, solve, or recommend solutions for regulatory challenges. We must be dedicated, yet flexible to adapt to the constantly changing requirements.

The diversity of individuals and organizations within the profession necessitates a commitment to evolve by a variety of options: continuing education, work experience, professional training, and certifications. Maintaining regulatory competence is a continual learning process. Regulatory professionals develop competence by:

- Being knowledgeable about current and future trends.
- Encouraging and supporting professional growth and development among peers and colleagues so all can gain and demonstrate competence in the profession.
- Participating in continuing education opportunities related to regulatory laws, guidance, standards, and other updates.

Objectivity

Regulatory professionals display objectivity by:

- Responding carefully to issues and recognizing other points of views and striving to offer an unbiased expression of facts.
- Presenting regulatory opinions, options and associated risks when developing regulatory strategies.
- Clearly delineating regulatory requirements, internal requirements and personal preferences.
- Appropriately disclosing new information.

Integrity

Regulatory professionals should not compromise their values or trustworthiness for personal gain or professional enhancement. Regulatory professionals shall develop and maintain integrity by:

- Keeping their commitments
- Giving credit for the work of others
- Maintaining confidentiality
- Seeking advice when uncertain
- Maintaining integrity without compromise
- Avoiding situations that put integrity at risk
- Accepting that best option may not be in their employer's short-term interest
- Avoiding conflicts of interest
- Adhering to their employer's Ethics and Compliance Standards

Honesty

Regulatory professionals shall exhibit honesty in all activities. Honesty requires acting free from deceit or deception, including dishonesty by omission or failing to provide comment when ethically required. Regulatory professionals shall build honesty and trust by:

- Ensuring information is accurate and complete.
- Protecting against omission of information or creation of false impressions.
- Resisting pressures to relax standards of honesty to achieve expediency.
- Providing a complete profile of a product under review in all regulatory submissions.

Courage

Regulatory professionals must have courage to evaluate, conclude, and provide consistent and accurate advice. Regulatory professionals develop courage by:

- Encouraging an open exchange of all views, even if they challenge regulatory advice.
- Admitting mistakes, accepting accountability and promptly correcting any errors, miscommunications, or misperceptions.
- Delivering bad news quickly to management when necessary.
- Providing information to all stakeholders regarding risks and consequences if regulatory advice is overruled or ignored.

Fairness

Regulatory professionals strive to treat all persons fairly, equitably, and equally to create and maintain a healthy workplace, so that all people can thrive both personally and professionally. Regulatory professionals demonstrate fairness by:

- Respecting the letter and spirit of laws and regulations.
- Applying the appropriate regulatory standards to all cases.
- Considering cultural and regional differences and local requirements.
- Presenting the facts and objective analysis of scientific information using sound statistical interpretation to minimize bias while clarifying uncertainty.
- Ensuring all interests, public and private, are appropriately considered in the regulatory decision processes.

Respect

Regulatory professionals must respect the roles of their colleagues, and both recognize and acknowledge all. Regulatory professionals develop respect by:

- Listening.
- Treating all parties with dignity and courtesy.
- Accepting personal differences.
- Creating a positive environment where diversity, equity and inclusion thrive.
- Creating an environment where there is zero tolerance for harassment of any kind towards others.
- Finding creative ways to resolve conflict.
- Being patient and forgiving when others make mistakes and not assign blame.

Appendix E

Appeals Request Form

You have the right to request reconsideration of any adverse examination decisions made by the RAPS Program Office. An appeal must be submitted in writing not more than 30 days following the date of notification of the adverse decision using the form provided. Appeals should be sent to the RAPS Program Office at certification@raps.org. All appeals will be acknowledged by RAPS within 10 days in writing. The Regulatory Affairs Certification Board (RACB) will address appeals. Appeals notifications will be provided within 90 days of receipt. All decisions made by the RACB are final.
Provide a concise description of the situation or issue and your desired outcome.
